How can you retain your staff, plan your workforce recruitment and beat the skills crisis?

Ring Connect Assess right now!

(02) 6241 2829

No company can thrive unless they provide good product, on time. And that takes a skilled workforce, committed to the vision.

Connect Assess can position your company to strive for excellence and meet customer demands by recruiting and helping you retain a highly skilled workforce in a global labour market.

With Australia gripped by its worst ever skills crisis, smart companies are planning ahead to avoid the skills crisis pitfalls, and stay ahead of the game.

Connect Assess can deliver you vital business services, including:

- ◆ skills audits of your company's future workforce needs and gap analysis,
- ◆ skills assessments of potential overseas employees,
- ◆ an audit and assessment of your company's existing workforce matched to national competency standards,
- ◆ new career structures and training plans,
- ◆ assessments of employee classifications under awards and industrial instruments,
- ◆ develop training packages to suit the technology requirements of your workforce,
- ◆ develop individual competency profiles as a key to your recruiting requirements,
- ◆ identify and contextualize national competency standard units to suit your business needs.

Our services offer great advantages to business, and incentives for employees to stay with your enterprise.

Our final product provides:

- ◆ a plan for recruitment and retention of employees in your enterprise,
- ◆ a mechanism for recruiting and assessing potential employees from overseas,
- ◆ enterprise specific Competency Standards Units,
- ◆ enterprise recognition of achievement,
- ◆ portability of knowledge and skill within your enterprise,
- ◆ career pathways for all employees.

Connect Assess has a strong track record across a range of industry areas, with specialist expertise in the electro-technology and electrical fields.

Connect Assess uses nationally accredited workplace assessors to oversee all aspects of the process.
